## Education

Jagan Nath Gupta Institute of Engineering and Technology, jaipur  
B.Tech - Computer Science and Engineering - CGPA - 7.3

2021 - 2025

## EXPERIENCE

### Chatsguru

Feb 2025 - Present

Full Stack Developer

- Built and debugged full-stack applications for smooth and scalable performance.
- Resolved frontend and backend issues to ensure seamless functionality.

### REGex Software Services

Aug 2024 - Jan 2025

Full Stack Developer Intern

- Developing and maintaining web applications using front-end and back-end technologies
- Debugged, tested, and resolved issues for improved user experience and performance

## Projects

### Portfolio -

[Live](#) [🔗](#)

- Designed and developed a responsive portfolio using Next.js, Tailwind and GSAP for smooth animations, praised for its modern UI design, intuitive user experience, and seamless performance across all devices.
- **Tech stack** : Next.js, Tailwind, GSAP.

### Trello(Task Management System) -

[Code](#) [🔗](#) [Live](#) [🔗](#)

- Developed a task management system similar to Trello using the MERN stack, featuring task management, board creation, drag-and-drop functionality, user profiles, authentication, dashboard views, table views, and profile sharing using email. Demonstrated expertise in full-stack development and delivering a seamless user experience.
- **Tech stack** : React.js, Node.js, Express.js, MongoDB, Tailwind.

### E-Commerce Website -

[Code](#) [🔗](#) [Live](#) [🔗](#)

- Developed a dynamic e-commerce site with intuitive navigation and responsive design, ensuring seamless interactions and a visually appealing experience across all devices. Enhanced usability and engagement for improved user satisfaction.
- **Tech stack** : React.js, Tailwind.

### WeatherApp -

[Code](#) [🔗](#) [Live](#) [🔗](#)

- Developed a weather app using JavaScript that dynamically displays real-time weather data based on user location, offering features like temperature, wind speed, and humidity.
- **Tech stack** : HTML, CSS, JavaScript, Weather API.

## SKILLS

**Languages:** C, C++, JavaScript, MongoDB.

**Technologies/Frameworks:** HTML,CSS, Bootstrap, Tailwind, React.js, Redux, Node.js, Express.js, Next.js, GSAP, Linux, Git, GitHub.

## CODING PLATFORMS

- Solved 500+ Problems across CodeChef. [🔗](#)
- Earned 5-star rating on HackerRank by solving coding challenges. [🔗](#)
